

Sprint 3 Review  
Food Now  
Sprint Completion: March 7, 2018

Actions to stop doing:

- We should stop being late to scrum meetings. This leads to a bad habit of having longer scrum meetings than needed
- We should stop not coming to scrum meetings unless everyone is notified beforehand. This will make scrum meetings more effective.
- We should stop separating frontend and backend so everyone knows what's happening. This allows everyone on the team to know what to do next.

Actions to start doing:

- Make more time to work on the project. We have many things to do in other classes and we should set aside some time to work on the project
- Group/Pair programming. Aside from scrum meetings, we should set up a meeting devoted to actual coding.
- We should communicate more so that we can coordinate tasks. This will allow us to have a more understanding on the overall project
- We need to make sure that all the merges don't conflict with each other or else it will be a headache to fix

Actions to keep doing:

- Keep communicating with each other. This will allow us to meet up and work on the project
- Keep getting work done to present at the end of the sprint.
- Keep meetings regularly so that we get more work done than working alone on our tasks

Work completed/not completed:

Completed

- (7) As a user, I want to see what restaurant Food Now! has selected for me
- (8) As a user, I want to click on the necessary UI elements to provide Fow Now! with my specific parameters.

Not Completed

- (10) As a user, I want a home/login/signup page so I can log into my account (half implemented)
- (3) As a user, I want to make an account so I can save my search history
- (3) As a user, I want to mark favorites so I can go back to the places I like

Work completion rate:

- Total user stories completed: 1

- Total work hours completed: 20
- Total days during sprint: 14
